

PUNTA BATTERY P-UB72

VALVE REGULATED LEAD ACID BATTERY

- Battery (12v / 7.2Ah)
- Voltage : 12V | Capacity : 7.2Ah
- Charging between : 15 degree to 35 degree
- Stand by use : 13.60-13.80V
- Stand by charge voltage: 13.8V
- Cycle use : 14.60-14.8V
- Maximum initial current : Less than 2.1A
- 1 year warranty

Product Description

VALVE REGULATED LEAD ACID BATTERY Introducing our high-performance Valve Regulated Acid Battery, the perfect power solution for various applications. Designed with advanced technology and precision engineering, our battery delivers reliable and long-lasting power in a compact and maintenance-free package. With its valve-regulated design, our battery ensures efficient and controlled acid circulation, eliminating the need for regular maintenance and preventing acid leakage. Say goodbye to the hassle of checking acid levels and enjoy a worry-free power solution Our battery provides exceptional performance and durability, delivering consistent power output for your critical devices and systems. Whether it's backup power for telecommunications, security systems, or renewable energy applications, our battery is designed to meet your power needs reliably. With its sealed construction, our battery offers enhanced safety, minimizing the risk of accidents and protecting both your equipment and the environment. Rest assured that our battery meets the highest safety standards and is built to withstand demanding conditions. Our Valve Regulated Acid Battery is backed by a comprehensive warranty, providing you with peace of mind and ensuring customer satisfaction. We are committed to delivering top-quality products and exceptional service. **Specification:**

- **Battery Type:** Sealed Maintenance-Free (SMF) Lead-Acid Battery
 - **Voltage:** 12V
 - **Capacity:** 7Ah (Ampere-hour)
 - **Technology:** Lead-Acid
 - **Maintenance:** Maintenance-free design eliminates the need for regular upkeep
 - **Application:** Suitable for use in uninterruptible power supplies (UPS), inverters, security systems, and more
 - **Longevity:** Designed for durable and long-lasting performance
 - **Safety:** Built with safety features to prevent leakage and ensure user protection
 - **Installation:** User-friendly design for easy installation
 - **Size:** Compact dimensions for easy integration into various setups
 - **Reliability:** Provides reliable power backup for critical devices and systems
 - **Environmentally Friendly:** Utilizes lead-acid technology known for its environmentally conscious characteristics
 - **Backup Solution:** Offers a dependable solution for maintaining power continuity during outages
 - **Compatibility:** Designed to work with a range of devices and systems requiring backup power
 - **Efficiency:** Ensures efficient energy storage and delivery
 - **Warranty:** 1 Year
-
